Casino grade rewards

A library can offer a world of knowledge while leaving readers without feedback on their progress. AddicTech brings the odds of a game to everyday learning through a reusable interaction toolkit.

- [ ] **Immediate visual feedback makes interactions feel responsive.**
- [ ] **Study points, levels and a replenishing mana bar make progress visible.**
- [ ] **Book-themed celebrations mark milestones and invite another chapter.**

What problem are we solving?

01

Returning readers for Digital Libraries

Every chapter read earns points and a celebration, so readers come back to explore the collection.

02

Visible progress for Learning Platforms

Everyday learning activities add up to study points and levels learners can watch grow.

03

Milestones to celebrate for Educators & Reading Communities

Book-themed celebrations mark each milestone, giving the group a reason to cheer together.

04

Open skill assessment for Libraries & Schools

Other libraries and school platforms connect to our open data and assess a reader’s skills from their consistent reading activity.

Roadmap

2026 ✓ Reading toolkit demonstration
Literacy concept illustration

2027 ● Proposed next stage: integrate feedback into library reading flows

2028 ● Proposed next stage: refine milestones with reader and educator feedback
